

## Features

- Battery operated
- 1 and 4 stations
- Two independent program
- Water budget 10-200%
- Stacking program
- Low battery indication
- Watering time: 1 min. to 599 min. in 1 min.increments
- Start time: 3 stars per program
- Days schedule: 7 days “select day” or “skip days” interval from 1-14 days
- Rain off function
- Program erase-total erase.
- Waterproof cabinet **IP68**

## Specifications

- Use one 9V Alkaline battery to operate the controller.
- Output to solenoid is 12V
- Operates 9 volt valves with latching solenoid, 2 wires, 2 or 3 ways.

### Maximum distances between Junior DC controllers and DCL solenoid

Cable section (mm <sup>2</sup> )	Maximum length (m)
0,5	100
1	200
1,5	300

### Code

JRDC-1-LS	Junior DC 1 st, less solenoid
JRDC-4	Junior DC 4 st, less solenoid
JRDC-1-2400MT	Junior DC 1 st, with solenoid DCL and valve 2400MT
JRDC-1-25003	Junior DC 1 st, with solenoid DCL and valve Euro F 1" w FC
DCL	Irritrol latching solenoid
