

Chrysal Professional 3 powder

Description

Chrysal Professional 3 is a powdered food supplement for the full development of flowers in vase and floral foam solutions.

General

Chrysal clear Professional 3 keeps the flowers in peak condition. It ensures full flower development, an optimum vase life and will guarantee customer satisfaction. Professional 3 is recommended for companies making flower arrangements. Wholesalers/bouquet makers: it promotes bud opening of immature flowers, e.g. carnations. Florists: for all vase or foam arrangements. It dissolves clearly and odourless in water.

Effects

- Keeps the flower in optimum condition
- Maintains true colours and reduces fading of flowers
- Prolongs vase life of flowers
- Leaves and stems remain firm and green

Packaging & Dosing

Available in 2.5, 5, 10 and 15kg buckets. For an optimal treatment dose 10 grams per litre of water.
